

APEX

The new gold standard in vertical jump measuring

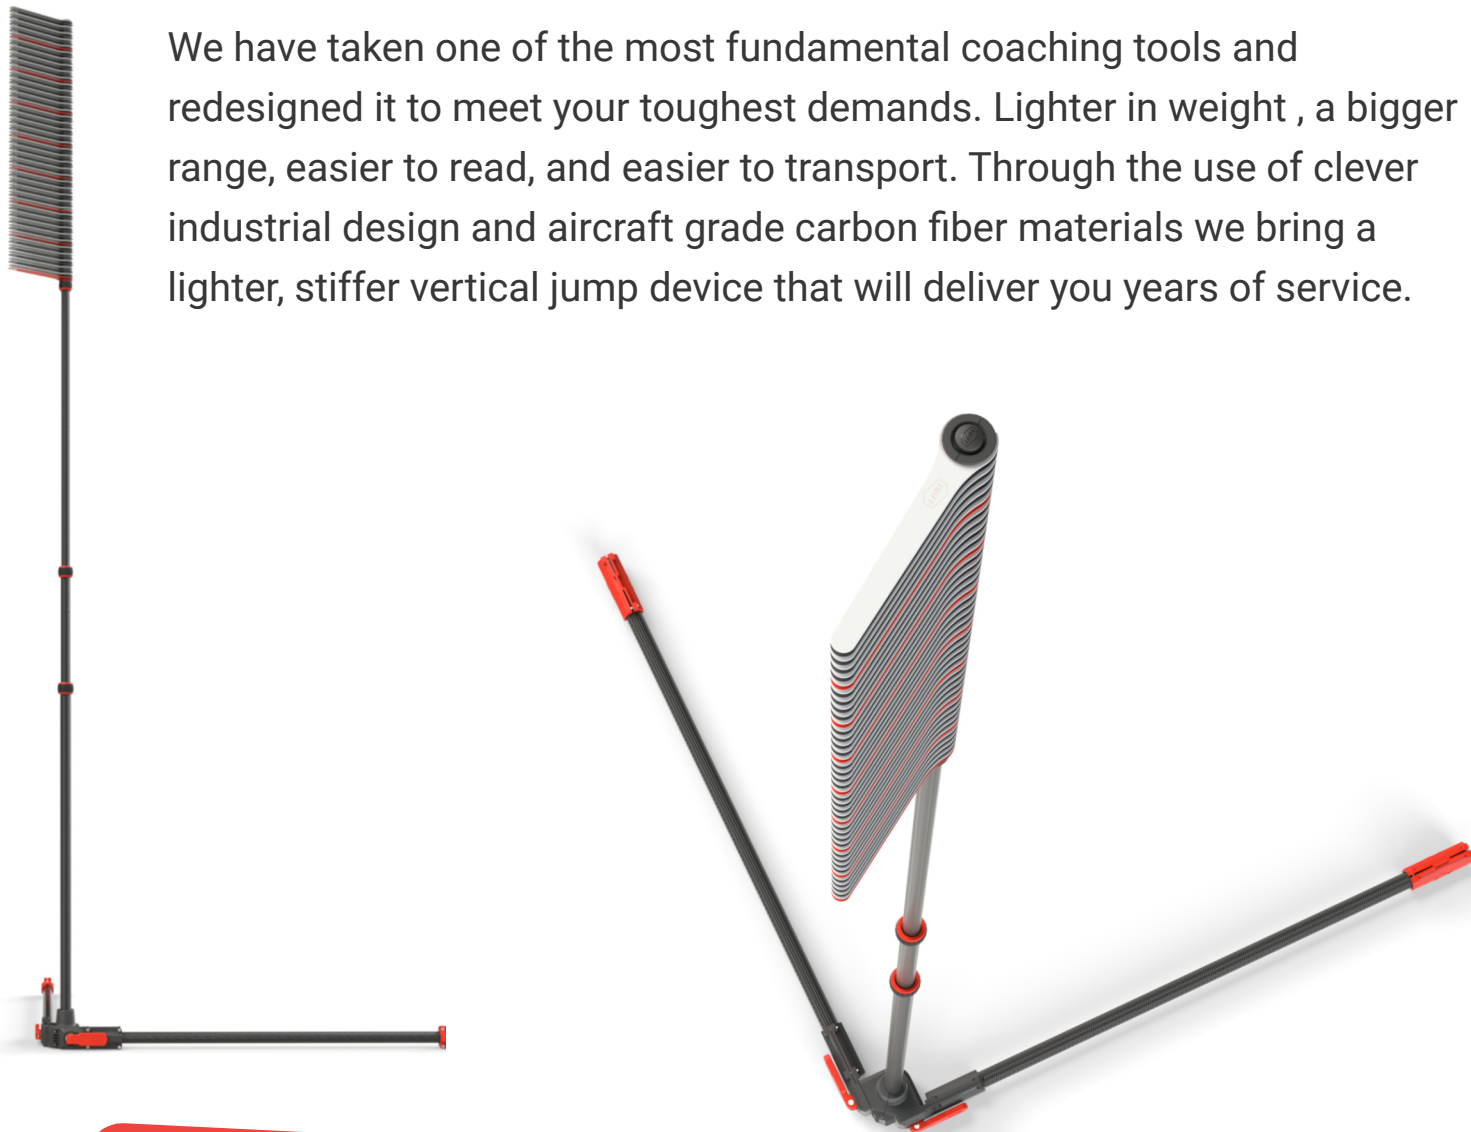

- Carbon Fibre construction
- Super Stable
- Fast Setup
- Unbreakable vanes
- Available in Centimeter or Inch versions
- Lightweight 11.5kg (25lbs)
- Massive Range 1.5 - 3.9m (59" - 153")

Vertical Jump, re-imagined.

We have taken one of the most fundamental coaching tools and redesigned it to meet your toughest demands. Lighter in weight , a bigger range, easier to read, and easier to transport. Through the use of clever industrial design and aircraft grade carbon fiber materials we bring a lighter, stiffer vertical jump device that will deliver you years of service.
